Couple things to look at that can answer some questions on flock. They will set up the transparency portal for us once we secure funding to keep some cameras past the 30 day trial. We can customize it to show what we desire. No action needed on anything, just FYI at this time.

Steve

External Sender

DC Redfearn, thank you again for your time earlier today. I wanted to send over a few items, as promised:

- Example of ALPR Transparency Portal HERE — please let us know if you would like to get this set up
- Flock camera deployment Social Media Copy templates

As I shared, the External Affairs team is here to help with any kind of community engagement, public official meeting, or press inquiry that you need support on. Don't hesitate to reach out!

Thanks,

Holly Beilin
