External Sender

Good Afternoon,

We are working with the University of Colorado - Boulder to install 11 ALPR cameras inthe City of Boulder Right of way.

We are proposing 4 to attach to existing traffic signal poles, and 7 to be attached to 12' Flock poles in your right of way.

These cameras are solar powered and require minimal digging.

I am attaching site plans and the permit application for your review. Please let me know if you have any questions or need additional information.

Thanks!
