Date: Wednesday, August 21, 2024 11:26:00 AM

Hey Alexandra,

Just checking in on this to confirm if the policies have been updated and set. Once this is confirmed, there are some preliminary documents that I will need prior to the CSP / CDOT submission.
I can explain this with greater detail when we are good to go.

Adding +Jennifer Silva in for visibility as she is the current Project Manager for the State of Colorado.

Thank you!

To answer your question, yes, it is a requirement of CDOT to ensure that all policies identified within section 4 of the checklist are in place. These required portions of the policies are based on legal and best practice guidelines that CDOT wants to ensure are in place before approving installation on state property or right-of-way. If there are any concerns about any of the specific policy components or if we can help with verbiage or if there is any other assistance we can provide as part of this process, please let me know.

this section result in a hard denial of the application? Do you know if agencies are able to proceed through the review process while they are actively revising their existing policies?

Thank you
