Hi Brian,

Sgt Heath will have to speak to success stories, he will be in on Wednesday. Are you able to check on the status of the Axon/Flock API no longer working? I tested it the day we went live with Axon ALPR and it was no longer working so I opened case # 00804805. Therese advised that it was a system wide issue, not just isolated to our API. But I haven't heard much since, other than it was being sent to engineering to review.

Thanks,
Jen

External Sender

Hi Boulder PD Team –

I was out of the office all last week but wanted to touch base on the trial now that I am back. How is the Fleet 3 + ALPR system performing thus far? Any success stories or items we can support with?

Best,

BRIAN MOUTINHO
