

FINAL CONCEPT: A FLEXIBLE PARK TODAY, READY FOR THE FUTURE

Building on community feedback, the final concept balances active recreation, flexible open space, and shaded gathering areas while preserving the site for a potential future clubhouse. A half basketball court and flexible soccer lawn support everyday recreation, while shade trees, temporary shade sails, and picnic tables create a welcoming central gathering space. Fitness amenities are located to the south so they can remain in place if a clubhouse is developed in the future.

1 Multi-use court

2 Landscape screening

3 Multi-Use soccer lawn

4 Canopy trees

5 Flexible shade & picnic area

6 Outdoor fitness

7 Bioswale
