Reasons For Audit Request – Trust, but Verify

- Sports Complex
 - In November, 2025 Director Wysocki presented headcount and expense information regarding the operators of the sports complex shown on the next page
 - I asked Director Wysocki for a report showing the operators expenses to validate the info reported – here is her response
 - “Various areas of Section 6 of the Operational agreement requires operator to maintain and provide evidence of gross sales. The agreement does not include requests for annual expenses.”
 - The Operational Agreement DOES allow for auditing with the following language – City has the right to audit

File #: 21-598

MEETING DATE: 9/7/2021

- Shall have the right, upon reasonable notice, during the Agreement Term and any extension thereof, and within three (3) years after Expiration or Termination of this Agreement to inspect and audit CONTRACTOR's books and records.

Reasons For Audit Request – Trust, but Verify

- Equestrian Center

- The last revenue report review (not an audit) was completed in 2018 for the period 11/1/2015 to 10/31/2028
 - It appears rent was paid late in **22 of 36 months** during that review and late rent fees were not paid for up to nearly 4 years after the payment was late
 - It appears late fees were only collected after review by Davis Farr in late 2018
 - The concession agreement requires any vendors operating in the equestrian center to be approved by city council – I have only found one approved vendor in the council minutes
 - The rest of the businesses appear to be operating without any approval by the city council.
 - There are many other issues that need review
