

Hello

To Whom It May Concern,

It has come to my attention that there is an issue regarding my neighbor-730 W South Blvds, front landscaping.

I would like to add my input if I may.

While I understand regulations state they must remove/ lower their fencing and shrubs, I would very much appreciate it if they could stay. They are no harm to us, and provide more good than they do harm, This road in the last 5 years of us living here, has had over 3 car accidents in our own front yards. taking out our mailboxes, landscaping, etc. This is an incredibly busy road. The shrubs and fence provide safety to those outside, and in them. By keeping them at the height they are, their family dog can safely go outside, as well. My family and I feel safer having them at the height they are and would like to make it known that we do not have any issue with them staying and would actually prefer them to stay.

Thank you for reading. If you have any questions, please feel free to email or call me.

To whom it may concern
I live at 750 South Blvd.
My neighbor at 730 South
Blvd
asked if their fence or
landscaping in any way
bothered me.

NO..... I don't see any
problem with what they
have. And I
kinda like it the way it is.
