Excellent--- 10am CT and 11am ET. I have run into that issue before working with others out on the East coast. Thanks

Rick

Next Thurs, Dec 7 at 10am works for my schedule. See the Zoom link below. I'll also send out a calendar invite to put it on your calendars. As I am typing, the 10am is CT, is Lexington on CT or ET? If ET, can we push this back a little? I have a 820am Dentist appt.

Topic: Flock/Lexington PD

Time: Dec 7, 2023 10:00 AM Central Time (US and Canada)

It shouldn't take more than 20 minutes. I've included my colleague Rick Helfers on this email. Please let us know what time next Thursday you can slot us in.

Thanks,

Johnnyu

Hi Commander,

Just circling back. Do you have time next week for a Zoom call? If so, what days and times would work for you?

Thanks,

Johnny

Johnny

I would be more than happy to discuss this. I will be out all next week, but returning on November 27th.

Subject: Flock research request

Hi Commander Greathouse,

I was given your contact info by Andrea Korb from Flock Safety who mentioned you may be interested in allowing further evaluation of the effectiveness of Flock's equipment in addressing public safety issues in your community. My colleague, Dr. Rick Helfers from the University of Texas at Tyler, and I are conducting sponsored research on the effectiveness of Flock technologies, such as ALPRs, and was informed that your agency employs such technologies.

We are interested in looking at and using your data. Specifically we'd like to look at crime data 2 years before Flock implementation and 2 years after. Such data includes stolen vehicles, investigations, and other crimes where Flock cameras may be used.

We would like to discuss the details further via a video Zoom call so we can see what data is available and the details of our project. Our goal is to help improve the technology and hopefully validate its effectiveness. Dr. Helfers is a former Police Captain from Richardson Police Department in Texas and I am currently a reserve officer from Fort Worth Police.

Thank you,

Johnny Nhan
