Dean,

When the Recruits graduate the end of August, they will all be equipped with body worn video cameras for their field training period.

This will be for Probationary Officers only. I have a number of policies from other agencies attached.

There are still a number of unanswered questions because they have yet to select a vendor.

LTC O'Toole is heading the assignment for the Chief. The Chief would like to have a draft policy by the end of July.

Please look over some of the attached policies and get with LTC O'Toole for more particulars.

It should be number SO 5-32.

Thanks
