## FIELD VALIDATION

## Evidence ID Validation Requirement

A regex is a programmatic way of expressing the format of a string of numbers, letters, and punctuation. For help creating a regex, please read through our Evidence.com Administrator Reference Guide.

If you need more help, Axon Professional Services is available to assist you with developing a regex that fits the needs of your agency. For more information, contact your local Axon representative.

REGEX: `/^[w]{2}-[w]{4}$/`

DESCRIPTOR: `XX-XXXX`
