

## BUILD A VIRTUAL GATE AROUND YOUR CAMPUS

Take a proactive approach to campus safety with License Plate Reading cameras + real-time alerts for campus law enforcement. Harness the ability to capture previously unavailable objective evidence to solve campus crime.

### WHY LICENSE PLATES ARE THE KEY TO SAFER SCHOOLS

70% of crime involves a vehicle, which is often stolen or has a stolen plate. That means preventing incidents on school property starts by detecting vehicles at the perimeter before a threat enters campus.

#### Proactive Alerts

- Disgruntled Employees
- Suspended Students
- Repeat Offenders
- Restrainer Orders
- Motor Vehicle Theft (NCIC)
- Sex Offenders (NCIC)

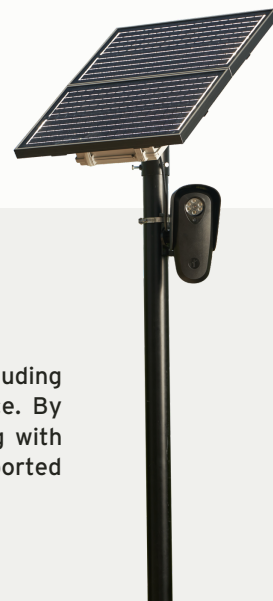

#### Investigative Leads

- Drug Distribution
- Construction Site Theft
- Catalytic Converter Theft
- Parking Lot Break-ins
- Vandalism
- Bicycle Theft

### HOW IT WORKS

Deploying fixed LPR cameras around your campus deters bad actors from committing offenses because it gives law enforcement and campus safety the enhanced vehicular evidence they need to intercept a threat before an incident occurs and apprehend and prosecute offenders proactively. Combine that with the live video cameras you've already invested in for better situational awareness with Flock Safety's Live Video Integration.

- ✓ Detect bad actors before an incident occurs.
- ✓ Alert local campus law enforcement to the scene in real-time.
- ✓ Search nearby cameras for real-time intelligence to optimize the outcome.
- ✓ Strengthen investigations and threat assessments with enhanced vehicle evidence.
- ✓ Build trust and loyalty with students, parents, visitors, faculty, & staff.

### Ohio State Sees Lowest Crime Rate in 10 Years with Flock Safety ALPR\*

In fall 2021, Ohio State University saw a significant uptick in campus crimes, including catalytic converter theft, stolen cars, burglaries, robberies, assault, and gun violence. By taking measures like deploying ALPR around campus parking garages and partnering with the Columbus Police Department for better campus coverage, Ohio State University reported that 2022 crime rates were the lowest in over a decade.

## AUTOMATED THREAT AWARENESS

Set up custom notifications to notify campus law enforcement and campus law enforcement officers when there are suspect, unauthorized, or even threat-listed plates in the area.

## EXPAND YOUR CAMPUS SAFETY, HASSLE-FREE

We believe in 24/7 safety-as-a-service. Rely on our team to handle everything from installation and proactive maintenance to ongoing enhancements—so your students, visitors, and staff are always protected.

## RAPID DEPLOYMENT

Pairing solar power and LTE connectivity with a lightweight, tamper-resistant design allows Flock Safety cameras to go wherever you need them quickly. Flock Safety's solution doesn't require access to your network or database, meaning IT involvement isn't needed.

## PRIVACY PROTECTION FOR YOUR STUDENTS, FACULTY, AND STAFF

Our technology focuses solely on objective evidence, like vehicles -- not people. Customers own 100% of their images and have exclusive access to the footage collected with our devices, meaning we never view, share, or sell your data.
