Flock Safety is redefining the Real-Time Crime Center (RTCC) with integrated technology that strengthens real-time responses and strategic operations. We're on the cusp of a transformative era in law enforcement, and we want you front and center as we bring you [our latest releases](#).

**What's in store for you at the event?**

- **Innovation:** See how our RTCC solutions merge AI-driven hardware and purpose-built software to prioritize officer safety and eliminate crime.
  - **Partnerships:** Witness how new integrations with platforms like Axon's Fleet 3 and Prepared 911 (and others!) redefine evidence collection and emergency response.
  - **Live Demo:** Watch Flock Safety's comprehensive suite in action to understand their drastic improvement to crime response, from call to case clearance.
  - **Q+A:** Directly engage with CEO + Founder, Garrett Langley, to get your questions answered in real-time.
- 

November 11th

2:00 p.m. ET / 11:00 a.m. PT

[REGISTER NOW](#)

Staying updated in law enforcement is crucial. Whether you're part of the Flock Safety network, or exploring new solutions, don't miss this event. [Join us](#) for a safer, smarter, and more connected future.

See you there!

# Flock Safety Empowers Officers with Real-Time Intelligence

---

**From:** Flock Safety <info@flocksafety.com>  
**To:** "Burgess, Tim" <tim.burgess@seattle.gov>  
**Date:** Tue, 09 Jan 2024 07:04:49 -0800

CAUTION: External Email

[View in Browser](#) | [Forward to a Friend](#)

Did you know that over 3,000 law enforcement agencies nationwide depend on [Flock Safety](#) to provide a comprehensive safety platform that empowers officers to stay one step ahead?

Our solution is:

- **Infrastructure free**, which reduces time-to-value and utility costs
- **Customizable and scalable** solution for optimal protection
- **One centralized platform**, so you can manage your data in real-time to make the most informed decisions while optimizing officer safety
- **Hassle-free subscription** model, allowing our team to handle everything so you can focus on protecting your community

To learn how Flock can customize a solution for your agency – [book a demo](#).

**Date:** Friday, December 15, 2023 at 6:13 AM  
**To:** Burgess, Tim <Tim.Burgess@seattle.gov>  
**Cc:** Dalton Webb <dalton.webb@flocksafety.com>  
**Subject:** License Plate Readers in Seattle <> IACP Follow-up

**CAUTION: External Email**

Hi Deputy Mayor Burgess,

Happy holidays. You may recall that we met at IACP in San Diego, and discussed the potential to deploy technology like Flock Safety License Plate Readers across Seattle to help stop crime.

I believe you were interested in watching how a city like San Francisco might navigate the issue, particularly when it comes to ensuring that we protect privacy for residents, and provide equal protection for all people, according to the law.

In case you missed it, in Nov Mayor Breed released her plans to deploy 400 Flock Safety license plate readers, <https://www.sf.gov/news/mayor-breed-introduces-legislation-install-400-new-automated-license-plate-readers>.

Over the past two weeks, that provision has been unanimously accepted in committee at the SF Board of Supervisors. There will be a vote before the entire Board in early January, and we expect the deal to be signed in February.

My team ran the community engagement campaign in San Francisco, as well as in cities like Berekely, Oakland, San Jose, and San Diego.

I plan to be in Seattle around 1/24/24 for a press conference with Tukwila to announce the success they've seen with Flock, and would love to chat with you or your team while we're there. Do you have any availability during that week to meet?

Josh

## I don't see you registered for tomorrow

---

**From:** Hayden at Flock Safety <hayden@flocksafety.com>  
**To:** "Burgess, Tim" <tim.burgess@seattle.gov>  
**Date:** Tue, 31 Oct 2023 07:10:49 -0700

CAUTION: External Email

Hi there,

I wanted to reach out as I haven't seen your registration come through for our virtual product launch with **Founder and CEO Garrett Langley** tomorrow at 2pm ET / 11am PT.

Our discussion will feature an **exclusive preview of cutting-edge AI solutions** and integrations designed to give you comprehensive insights across LPR, video, audio, and third-party devices and systems, enabling more confident responses and better outcomes.

You can save your spot [here](#).

See you there!

Hayden

P.S. Have a scheduling conflict? No problem! [Register](#) anyway and we'll forward you the event recording

## License Plate Readers in Seattle <> IACP Follow-up

---

**From:** Josh Thomas <josh.thomas@flocksafety.com>  
**To:** "Burgess, Tim" <tim.burgess@seattle.gov>  
**Cc:** Dalton Webb <dalton.webb@flocksafety.com>

**CAUTION: External Email**

Hi Deputy Mayor Burgess,

Happy holidays. You may recall that we met at IACP in San Diego, and discussed the potential to deploy technology like Flock Safety License Plate Readers across Seattle to help stop crime.

I believe you were interested in watching how a city like San Francisco might navigate the issue, particularly when it comes to ensuring that we protect privacy for residents, and provide equal protection for all people, according to the law.

In case you missed it, in Nov Mayor Breed released her plans to deploy 400 Flock Safety license plate readers, <https://www.sf.gov/news/mayor-breed-introduces-legislation-install-400-new-automated-license-plate-readers>.

Over the past two weeks, that provision has been unanimously accepted in committee at the SF Board of Supervisors. There will be a vote before the entire Board in early January, and we expect the deal to be signed in February.

My team ran the community engagement campaign in San Francisco, as well as in cities like Berekely, Oakland, San Jose, and San Diego.

I plan to be in Seattle around 1/24/24 for a press conference with Tukwila to announce the success they've seen with Flock, and would love to chat with you or your team while we're there. Do you have any availability during that week to meet?

Josh

## Question

---

**From:** "Burgess, Tim" <tim.burgess@seattle.gov>  
**To:** kyle.egkan@flocksafety.com  
**Date:** Mon, 02 Oct 2023 07:18:37 -0700

Morning, Kyle.

Thank you for the demo of the Flock systems.

One question that has arisen as we make our case for implementing CCTV is how many Washington jurisdictions currently use CCTV and related technologies.

Is the following sentence accurate? I counted the number of Washington jurisdictions you included on one of your slides. "At least 43 municipalities in Washington State use CCTV technology." Was your list about CCTV or perhaps other technologies?

**Tim Burgess** (he/him/his)

We are still talking with Flock currently about gunshot detection and cctv options they have available. If they MO is interested in fixed position ALPR for the future, I'd be happy to meet with them and hear bout their experiences deploying in surveillance sensitive cities like San Francisco.

Hi Mr. Burgess,

The slide represented how many Washington agencies are utilizing Flock and did not represent a specific product, so that statement is not true for "Flock customers". I am also unsure of the total number of agencies that might have CCTV that we are not aware of. The 4 products that we covered are Flock OS (software of the system), Falcon (ALPR), Condor (Live video: PTZ and Bullet camera(s)), and Raven (gunshot detection).

Here's two agencies in Washington with live Transparency Portals:

[Centralia Police Department](#)  
[Kent Police Department](#)

There's quite a few others who are in the process of building/finalizing theirs as well, including Spokane County Sheriff's Office (who isn't live/shareable quite yet).

An example of a Transparency Portal for large-scaled agencies is available with [Shelby County \(TN\) Sheriff's Office](#), with just under 700 sworn and almost 140 cameras.

Thank you,

Kyle

Another question, Kyle.

Can you send me a link to the city police department that had a public facing dashboard that include details on how CCTV is being used, please?

**Subject:** Question

Morning, Kyle.

Thank you for the demo of the Flock systems.

One question that has arisen as we make our case for implementing CCTV is how many Washington jurisdictions currently use CCTV and related technologies.

Is the following sentence accurate? I counted the number of Washington jurisdictions you included on one of your slides. "At least 43 municipalities in Washington State use CCTV technology." Was your list about CCTV or perhaps other technologies?
