Hailey,

Not yet. The village is working with the school on another contentious issue and need to get that resolved prior to the camera. I'll let you know when that occurs, hopefully in the next month or so. Thanks.

Mike

Howdy Sir -

Just checking in to see if there has been any progress made with Loyola Academy?
Once we have their permission I can push [#05 \(New\) Lake West of I94 \(WB\)](#) forward in our system and get it scheduled for installation!

Please let me know if you need anything from me in order to proceed here and feel free to refer to your [Tracker](#) in the meantime.

Thanks,

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.
I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Howdy Sir -

I hope you had a great New Year!

Just wanted to check back in here.

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbay/Ashland (SR)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Rock Sheridan (SR)	Permitting	Issued	IL	City		Falcon	
12 - Hubbard @ Sunnyside (SR)	Permitting	Issued	IL	City		Falcon	
13 - Josephine/CTA tracks (VSR)	Permitting	Issued	IL	City		Falcon	
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Received Village of Wilmette approval to install on these four light poles Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
							Permit expires March 23, 2024

Are you ok with us moving forward here?

Thanks!

On Thu, Dec 28, 2023 at 9:42 AM Hailey Spessard <hailey.spessard@flocksafety.com> wrote:

Howdy Sir -

Thank you for the update!

I will wait to hear from you regarding the camera at Loyola Academy before moving forward with any work there.

Quick question - **Are you OK if I go ahead and push your 4 City Locations** (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled mid-late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbay/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hibbard @ Sprucewood (SB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles. Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
13 - Isabella CTA tracks (WB)	Permitting	Issued	IL	City		Falcon	
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Once I have your go ahead I will send these to our Field Team to get scheduled!
Let me know if you have any questions and feel free to refer to your [Tracker](#) at any time.

Thanks & Happy New Year!

Howdy Sir -

Understood!

Just so you are aware, we are planning on receiving a very long awaited pole shipment on or around 1/22. Once we have this we can go ahead and schedule the installation for Camera 11 with our IDOT Installation Vendor (and then Cameras 9, 10, 12 & 13 with our internal team).

Please let me know once we are good to proceed here.

The number of poles in this shipment is limited (and we are holding one for this installation) so I just need to know before then if we can move forward!

Thank you!

Hi there -

No worries! Just checking in to see if Mike was able to review my last email, below -

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

Thank you,

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Hailey,
Can I get a list of sites for the 7 upcoming installs and there power requirements (solar or wired)?
Thanks
Mike Robinson

Howdy Sir -

Understood!

Just so you are aware, we are planning on receiving a very long awaited pole shipment on or around 1/22. Once we have this we can go ahead and schedule the installation for Camera 11 with our IDOT Installation Vendor (and then Cameras 9, 10, 12 & 13 with our internal team).

Please let me know once we are good to proceed here.

The number of poles in this shipment is limited (and we are holding one for this installation) so I just need to know before then if we can move forward!

Thank you!

Hi there -

No worries! Just checking in to see if Mike was able to review my last email, below -

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**
If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

Thank you,

On Fri, Jan 5, 2024 at 12:46 PM Clark, Michael <clarkm@wilmette.com> wrote:

Hailey,

Thanks for reaching out again. I have not forgotten about you. Mike Robinson has mostly been handling our Flock Program. He is back on Monday. I know he met with our village officials so I'd like him to respond on Monday if that is OK.

Mike

Howdy Sir -

I hope you had a great New Year!

Just wanted to check back in here.

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbaw/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hubbard @ Sonrisewood (SB)	Permitting	Issued	IL	City		Falcon	
13 - Isabelle/CTA tracks (WB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Are you ok with us moving forward here?

3/15/2024

Thanks!

Howdy Sir -

Thank you for the update!

I will wait to hear from you regarding the camera at Loyola Academy before moving forward with any work there.

Quick question - **Are you OK if I go ahead and push your 4 City Locations** (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled mid-late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbush/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hubbard @ Sprucewood (SB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles
13 - Isabelle/CTA tracks (WB)	Permitting	Issued	IL	City		Falcon	Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Once I have your go ahead I will send these to our Field Team to get scheduled!

Let me know if you have any questions and feel free to refer to your [Tracker](#) at any time.

Thanks & Happy New Year!

Howdy Sir -

Just checking in to see if there has been any progress made with Loyola Academy?

Once we have their permission I can push [#05 \(New\) Lake West of I94 \(WB\)](#) forward in our system and get it scheduled for installation!

Please let me know if you need anything from me in order to proceed here and feel free to refer to your [Tracker](#) in the meantime.

Thanks,

On Thu, Nov 9, 2023 at 9:52 AM Clark, Michael <clarkm@wilmette.com> wrote:

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

On Mon, Oct 30, 2023 at 11:12 PM Hailey Spessard <hailey.spessard@flocksafety.com> wrote:

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

3/15/2024

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Let's eliminate crime and
shape a safer future, together.

Hi there,

We received an alert regarding power connectivity from Flock Safety camera 07 - **Sheridan/Canterbury (NB) at IL - Willmette - PD - Part 1 A**. At your earliest convenience, could you please help ensure that power is flowing normally to the AC box?

Please follow the below steps to check your power source and prevent prolonged camera downtime.

Confirm the red light is glowing on the rectangular box that feeds a wire to the camera:

- **If the Red light is not lit (Off)**, please have a professional check your incoming power for potential issues such as a tripped circuit breaker or damaged power line. Please look carefully as the light can be faint in daylight.
- **If the Red light is lit (On)**, please reply to this message or email Flock Safety via support@flocksafety.com and let our team know so that we can send a technician out to troubleshoot.

Note: Some models have a Green light; if this is the case, please report whether it is On or Off.

3/15/2024

Thank you for your assistance, and stay safe,

Howdy Sir -

Wow you're right!

It looks like your installations were rescheduled to 2/5 & 2/6 (from 3/5 & 3/6).

We do oftentimes have shifts in the schedule but they usually aren't a whole month earlier so I hope that this does not cause any issues!

It looks like all of the below cameras have been successfully installed:

[09 - Greenbay/Ashland \(SB\)](#)
[10 - 1700 Block Sheridan \(SB\)](#)
[12 - Hibbard @ Sprucewood. \(SB\)](#)
[13 - Isabella/CTA tracks \(WB\)](#)
[20 - Laramie/Lake \(SB\)](#)
[21 - Old Glenview/Hibbard \(EB\)](#)

These are currently hibernating and are ready to be hooked up to AC Power at your earliest convenience.

Camera 11 is pending an installation date from our IDOT install vendor.

Since this camera is in IDOT ROW it has to use a different pole and base that we are waiting to be delivered to our warehouse. We are aiming to have this pole installed this month but I will send over that date as soon as I am able to.

I will send over that install date for Cam 11 as soon as it is scheduled but please let me know if you have any questions in the meantime or need any additional information from Flock in order to hook these cameras up to AC Power.

Thank you!

This message originated from an external source. Please use caution in handling it.

Howdy Sir -

We have created a Work Order for **Camera 20 - Laramie/Lake (SB)** and I am just pending our Field Team to schedule that maintenance (replace and test the equipment).
I will have a date for you shortly!

In better news, the pole installation for **Camera 11 (Crawford/Old Glenview (NB))** has been tentatively scheduled for next week (aiming for 2/20)!
This date is tentative, but you will be notified if it changes.

As long as we do not run into any utility conflicts, we will be able to schedule the camera and solar panel installations shortly thereafter.

I will send over your maintenance date for Camera 20 ASAP but please let me know if you have any questions and feel free to refer to your updated [Tracker](#) in the meantime.

Thanks,

Mimecast Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

Howdy Sir -

Wow you're right!

It looks like your installations were rescheduled to 2/5 & 2/6 (from 3/5 & 3/6).

We do oftentimes have shifts in the schedule but they usually aren't a whole month earlier so I hope that this does not cause any issues!

It looks like all of the below cameras have been successfully installed:

[09 - Greenbay/Ashland \(SB\)](#)

[10 - 1700 Block Sheridan \(SB\)](#)

[12 - Hibbard @ Sprucewood. \(SB\)](#)

[13 - Isabella/CTA tracks \(WB\)](#)

[20 - Laramie/Lake \(SB\)](#)

[21 - Old Glenview/Hibbard \(EB\)](#)

These are currently hibernating and are ready to be hooked up to AC Power at your earliest convenience.

Camera 11 is pending an installation date from our IDOT install vendor.

Since this camera is in IDOT ROW it has to use a different pole and base that we are waiting to be delivered to our warehouse. We are aiming to have this pole installed this month but I will send over that date as soon as I am able to.

I will send over that install date for Cam 11 as soon as it is scheduled but please let me know if you have any questions in the meantime or need any additional information from Flock in order to hook these cameras up to AC Power.

Thank you!

On Mon, Feb 5, 2024 at 11:39 AM Robinson, Michael <robinsonm@wilmette.com> wrote:

Hailey,

On your emails the install dates say 3/5 and 3/6. We just received notice its 2/5 and 2/6. Can you confirm which is correct?

Subject: Incorrect Bill

Attachments: DOC022924-02292024115908.pdf

Sir or Ma'am,

Attached is the bill I received for the recent installation of cameras. The bill lists 5 cameras. We actually had 7 cameras installed. I believe all of these cameras were on non-Illinois Department of Transportation roadways.

Can you send me an amended bill so I can process it please?

The bill should reflect 7 cameras installed with the appropriate installation fees. If you need more information please let me know. Thanks.

Hailey,

Can we schedule a quick conference call to discuss the installation of our camera that was being held up by the Cook County Permit. It is now going on the high school property. I think we have a tentative plan with the village and high school. There is information that we need to share with Flock. Let me know. Thanks.

Hailey and Other Flock Reps,

I have two items for you:

1. We are not clear to proceed with Camera #5. We need to get an MOU with Loyola Academy which the Village is working on. As part of this they are obtaining a plat of survey to potentially create an easement. There is going to be a meeting with the Village, Loyola, and the survey crew that is tentatively scheduled for the week of March 25. Is there a rep from Flock that could attend this meeting just in case the position of the camera needs to be adjusted?
2. Do any of you have a contact in the billing department? Attached is a bill we received after our latest 7 cameras were installed about a month ago. The amount is incorrect, and I cannot submit this for payment because it is incorrect. I e-mailed billing on 2/29/24 and have not been able to get a response from them to correct this situation. The bill should reflect 7 cameras installed and 7 cameras.

Thanks.

Subject: Camera Access Request from Hanover Park IL PD

flock safety

The officers at the Hanover Park Police Department would like to connect to your cameras so we can more efficiently investigate crimes that have occurred in our area. We would also be happy to share access to our Flock Cameras in return once a request is made. If you have any questions, feel free to reach out to Deputy Chief Matt Riedel at mriedel@hpil.org.

Hanover Park IL PD has requested access to Wilmette IL PD 's Flock Safety camera footage. In order for Hanover Park IL PD to view your footage, you must grant them access. To grant access, please follow these instructions:

1. Open the **Devices** tab in **Admin**
2. Click on the **Share** button on the upper right corner
3. In the Cameras to Share dropdown, select the network you would like to share
4. In the Share with dropdown, select Hanover Park IL PD
5. Click **Save** and repeat for other agencies as desired

As the owner of your footage, you can revoke this access at any time. If you have questions or need further assistance, please reply to this message or email **support@flocksafety.com**. More information available in the **Flock Safety Help Center**.

Thank you and stay safe,
The Flock Safety Team

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Howdy Sir -

Just checking in to see if there has been any progress made with Loyola Academy?
Once we have their permission I can push [#05 \(New\) Lake West of I94 \(WB\)](#) forward in our system and get it scheduled for installation!

Please let me know if you need anything from me in order to proceed here and feel free to refer to your [Tracker](#) in the meantime.

Thanks,

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Mike

Subject: Camera Access Request from Lake Forest IL PD

flock safety

The officers at the Lake Forest Police Department would like to connect to your cameras so we can more efficiently investigate crimes that have occurred. If you have any questions, feel free to reach out to us at kruchkoa@cityoflakeforest.com

Lake Forest IL PD has requested access to Wilmette IL PD 's Flock Safety camera footage. In order for Lake Forest IL PD to view your footage, you must grant them access. To grant access, please follow these instructions:

1. Open the **Devices** tab in **Admin**
2. Click on the **Share** button on the upper right corner
3. In the Cameras to Share dropdown, select the network you would like to share
4. In the Share with dropdown, select Lake Forest IL PD
5. Click **Save** and repeat for other agencies as desired

As the owner of your footage, you can revoke this access at any time. If you have questions or need further assistance, please reply to this message or email **support@flocksafety.com**. More information available in the **Flock Safety Help Center**.

Thank you and stay safe,
The Flock Safety Team

 Subject: Re: IL - Wilmette PD - Flock Safety - PM Update

Howdy Sir -

Thank you for the update!

I will wait to hear from you regarding the camera at Loyola Academy before moving forward with any work there.

Quick question - **Are you OK if I go ahead and push your 4 City Locations** (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?** If I push them forward now they will probably be scheduled mid-late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenwood/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hubbard @ Sprucewood (SB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles
13 - Isabelle/CIA tracks (WB)	Permitting	Issued	IL	City		Falcon	Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Once I have your go ahead I will send these to our Field Team to get scheduled!
 Let me know if you have any questions and feel free to refer to your [Tracker](#) at any time.

Thanks & Happy New Year!

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected

officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five

cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

3/15/2024

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Thank you for the update!

I will wait to hear from you regarding the camera at Loyola Academy before moving forward with any work there.

Quick question - **Are you OK if I go ahead and push your 4 City Locations** (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled mid-late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbay/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hibbard @ Sprucewood (SB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles
13 - Isabella CTA tracks (WB)	Permitting	Issued	IL	City		Falcon	Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Once I have your go ahead I will send these to our Field Team to get scheduled!
 Let me know if you have any questions and feel free to refer to your [Tracker](#) at any time.

Thanks & Happy New Year!

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Howdy Sir -

I hope you had a great New Year!

Just wanted to check back in here.

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**
 If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbay/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hibbard @ Sprucewood (SB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles
13 - Isabella CTA tracks (WB)	Permitting	Issued	IL	City		Falcon	Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Are you ok with us moving forward here?

Thanks!

Subject: Re: IL - Wilmette PD - Flock Safety - PM Update

Hi there -

No worries! Just checking in to see if Mike was able to review my last email, below -

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**
If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

Thank you,

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

On Mon, Oct 30, 2023 at 11:12 PM Hailey Spessard <hailey.spessard@flocksafety.com> wrote:

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

3/15/2024

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Howdy Sir -

Just checking in to see if there has been any progress made with Loyola Academy?

Once we have their permission I can push [#05 \(New\) Lake West of I94 \(WB\)](#) forward in our system and get it scheduled for installation!

Please let me know if you need anything from me in order to proceed here and feel free to refer to your [Tracker](#) in the meantime.

Thanks,

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

3/15/2024

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Howdy Sir -

Understood!

Just so you are aware, we are planning on receiving a very long awaited pole shipment on or around 1/22.

Once we have this we can go ahead and schedule the installation for Camera 11 with our IDOT Installation Vendor (and then Cameras 9, 10, 12 & 13 with our internal team).

Please let me know once we are good to proceed here.

The number of poles in this shipment is limited (and we are holding one for this installation) so I just need to know before then if we can move forward!

Thank you!

Howdy Sir -

Just checking in to see if there has been any progress made with Loyola Academy?

Once we have their permission I can push [#05 \(New\) Lake West of I94 \(WB\)](#) forward in our system and get it scheduled for installation!

Please let me know if you need anything from me in order to proceed here and feel free to refer to your [Tracker](#) in the meantime.

Thanks,

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Mike

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

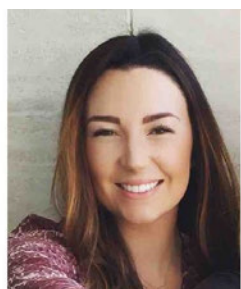

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Subject: How the winter storm may impact your Flock Safety devices

Hi there,

We monitor the weather across the country to ensure that Flock Safety devices are capturing as much evidence as possible. With that, our systems indicate that some of your devices may experience some downtime due to the large storm passing through the country this week.

If the weather is below freezing, the battery may struggle to charge. As soon as the temperature rises, you should expect your devices to return to normal.

If your area is without sunlight for an extended period, the devices will utilize the internal batteries, but if that timeframe is prolonged enough, you may experience some gaps in coverage.

Our team of technicians will be in your area to visit devices that require maintenance; response times may be hampered by travel conditions.

Thank you for your patience and understanding, and stay safe,
The Flock Team

Hi there -

No worries! Just checking in to see if Mike was able to review my last email, below -

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

Thank you,

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

IL - Wilmette - Part 2	Status	Secondary Status	Permitting	Property Type	Validation Date	Device Type	Notes
09 - Greenbay/Ashland (SB)	Permitting	Issued	IL	City		Falcon	
10 - 1700 Block Sheridan (SB)	Permitting	Issued	IL	City		Falcon	
12 - Hibbard @ Sprucewood (SB)	Permitting	Issued	IL	City		Falcon	
13 - Isabella/CTA tracks (WB)	Permitting	Issued	IL	City		Falcon	Received Village of Wilmette approval to install on these four light poles Ready to proceed with installations once customer gives us the go-ahead (after Jan 1 2024)
11 - Crawford/Old Glenview (NB)	Permitting	Issued	IL	DOT		Falcon	Permit expires March 23, 2024

Are you ok with us moving forward here?

Thanks!

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out. Thanks.

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

Feel free to refer to your [Tracker](#) for more detailed status updates for each of your cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

Howdy Sir -

Understood!

Just so you are aware, we are planning on receiving a very long awaited pole shipment on or around 1/22. Once we have this we can go ahead and schedule the installation for Camera 11 with our IDOT Installation Vendor (and then Cameras 9, 10, 12 & 13 with our internal team).

Please let me know once we are good to proceed here.

The number of poles in this shipment is limited (and we are holding one for this installation) so I just need to know before then if we can move forward!

Thank you!

Hi there,

We received an alert regarding power connectivity from Flock Safety camera **07 - Sheridan/Canterbury (NB)** at **IL - Willmette - PD - Part 1 A**. At your earliest convenience, could you please help ensure that power is flowing normally to the AC box?

Please follow the below steps to check your power source and prevent prolonged camera downtime.

Confirm the red light is glowing on the rectangular box that feeds a wire to the camera:

- **If the Red light is not lit (Off)**, please have a professional check your incoming power for potential issues such as a tripped circuit breaker or damaged power line. Please look carefully as the light can be faint in daylight.
- **If the Red light is lit (On)**, please reply to this message or email Flock Safety via support@flocksafety.com and let our team know so that we can send a technician out to troubleshoot.

Note: Some models have a Green light; if this is the case, please report whether it is On or Off.

Thank you for your assistance, and stay safe,

Hi there,

We received an alert regarding power connectivity from Flock Safety camera **07 - Sheridan/Canterbury (NB)** at **IL - Willmette - PD - Part 1 A**. At your earliest convenience, could you please help ensure that power is flowing normally to the AC box?

Please follow the below steps to check your power source and prevent prolonged camera downtime.

Confirm the red light is glowing on the rectangular box that feeds a wire to the camera:

Howdy Sir -

Understood!

Just so you are aware, we are planning on receiving a very long awaited pole shipment on or around 1/22.

Once we have this we can go ahead and schedule the installation for Camera 11 with our IDOT Installation Vendor (and then Cameras 9, 10, 12 & 13 with our internal team).

Please let me know once we are good to proceed here.

The number of poles in this shipment is limited (and we are holding one for this installation) so I just need to know before then if we can move forward!

Thank you!

Hi there -

No worries! Just checking in to see if Mike was able to review my last email, below -

Are you OK if I go ahead and push your 4 City Locations (under Part 2 in your contract - Cameras 9, 10, 12 & 13) **forward to go ahead and get those installations scheduled?**

If I push them forward now they will probably be scheduled late January '24.

Also, just a head's up - I am going to try and get Camera 11 (IDOT) scheduled as close to the other pole installations as possible but they will likely be a couple weeks apart from each other since they are different pole types and vendors - Is that OK?

Thank you,

On Fri, Jan 5, 2024 at 12:46 PM Clark, Michael <clarkm@wilmette.com> wrote:

Hailey,

Thanks for reaching out again. I have not forgotten about you. Mike Robinson has mostly been handling our Flock Program. He is back on Monday. I know he met with our village officials so I'd like him to respond on Monday if that is OK.

Hailey,

Nice to meet you. Moving forward Mike Robinson and myself are the best points of contact regarding the cameras. Sorry for my delayed response.

We will be moving Camera 5 to Loyola Academy. Our village attorney is working on the agreement with Loyola, but he has to work out a few other issues with them prior to us being able to move forward on that. We will keep you posted. We need to go back to our elected officials with an update on the LPR Program as well. That meeting is going to happen soon, so we cannot move forward with additional cameras until that meeting takes place. We will keep you posted on that progress as well.

If you need anything else or have any concerns please don't hesitate to reach out.
Thanks.

Howdy All -

Apologies for the back-to-back email!

We have received Village approval for Cams 9, 10, 12 & 13 (from Tony Muzik) and our IDOT permit for Cam 11 does not expire until March 22, 2024 so we are all set to push these five cameras forward to installation status (once the PD gives us permission to do so).

Please let me know your thoughts on Camera 5 (Loyola Academy) so we can get that one moving as well.

Let me know if you have any questions.

Thanks,

On Mon, Oct 30, 2023 at 11:12 PM Hailey Spessard
<hailey.spessard@flocksafety.com> wrote:

Howdy All -

My name is Hailey and I will be your Project Manager moving forward for your Flock Cameras at Wilmette PD!

I know that we are not wanting to install Phase 2 until after the first of the year but we are making sure we have all of the required permissions in place so that we are good to go once that time rolls around!

Please see a quick update regarding your cameras (below) -

IL - Wilmette - PD - Part 1

Camera 5 (Lake West of I94 (WB)) - Pending Customer Approval

Flock shifted this targeted location outside of Cook County ROW

New location is at (42.079689, -87.760454) - **Do you approve of this new location?**

We would only need written permission from Loyola Academy and then we can move forward with installation!

Cams 1, 2, 3, 4, 6, 7 & 8 - Installed & In Service

IL - Wilmette - Part 2

Cam 11 - Received IDOT permit approval back in March of 2023

Flock confirming the expiration date with IDOT to determine if an extension will be required here or not

Cams 9, 10, 12 & 13 - Pending Village of Wilmette Approval

I reached out to Tony Muzik with the Village of Wilmette to obtain approval on these four locations 10/30

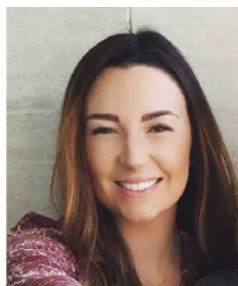

cameras, as well as to reference your Deployment Plan.

Please let me know your thoughts on the new location for Camera 5.

I will keep you updated on the status of your Part 2 permits as well so that we can make sure we are all set for install when the first of the year rolls around.

Thanks,

AC Kit Handout

Flock Safety is a leading provider of license plate recognition (LPR) cameras for community-wide safety. Our camera system is designed to be infrastructure-free, using cellular networking and solar power; however, there are certain deployments that have limited access to sunlight and require AC power. Flock offers an easy-to-use AC Kit that enables our customers to work with local electricians to route power to the cameras after it has been installed. This results in an efficient quote and installation process.

This document covers:

1. The AC Kit Installation process
2. Electrician Installation Steps
3. Frequently Asked Questions

If you have any questions, please reach out to your project manager.

AC KIT INSTALLATION PROCESS

1. Create Deployment Plan With Flock

Your Flock representative will work with you to select the best location(s) for your Flock device(s). For locations that may require AC power, it will be helpful for you to know where the closest AC power is available so that we can select the closest workable location.

2. Get a Quote From the Electrician

Once the locations have passed through the approval process, provide the electrician of your choice with this document and the finalized deployment plan. Ask them to quote running AC power to the intended camera location and connecting power to the camera as described in the instructions in this document. Explain that we will install the camera and AC Kit first, and their work will be completed afterward.

3. Sign Flock Safety Agreement

Once you know the cost of the electrician you will need to sign the Flock Safety purchase order to begin the installation of the cameras.

4. Flock Performs Site Survey

Flock will mark each camera location from the deployment plan. Local 811 centers will be contacted to have underground utilities located and marked if they are present in the area. Please note that this process can take up to seven business days depending on the individual utility centers' backlogs. If the pole is existing, the 811 process will not need to be completed.

5. Flock Installs the Camera

A Flock technician will install the camera(s) and AC Kit(s) at the specified location(s). Flock will send you an email once our devices have been successfully installed, letting you know that the site is ready for the next step.

6. Electrician Connects Power

Your chosen electrician will run power and make connections inside the Flock-installed AC Kit at the bottom of the camera pole. Once they confirm that everything is working correctly, notify your project manager, and we will begin the final part of the installation process.

7. Locations Validated

Once power has been run to the camera, it will go through the validation process – where Flock will confirm that everything is running to our standards. Once this process has been completed, you will be given access to the Flock system and a training call will be set up so you can learn how to use it.

AC KIT SPECIFICATIONS

1. The AC Kit is available in 120VAC and 240VAC Variants.
2. The AC Kit can be pole or hard-surface mounted. The underside of the polycase container has two sets of slits that allow for two hose clamps to slip through for pole mounting. There are 4 [feet] on the surface-mounted kits for it to be securely screwed to the mounting surface.
 - For 3" poles, the minimum requirement for a hose clamp is SAE Size 56 (13" Length)
 - The minimum length requirement for Tapcon screws is 1 ¼" when mounting to hard surfaces

3. The AC Kit contains AC-to-DC conversion and surge protection circuitry inside. The kit comes pre-wired with a physical rocker switch on the AC line (Live) to de-power the kit.
 - Power Converter: IRM-60-24ST
 - Surge Protector: LSP10120S
 - Live AC powers LED on the front of Polycase
 - Live AC charges Falcon with 24VDC (60W) output
4. Each AC Kit will have a Chogori cable extending out from the bottom end of the container.
 - Runs parallel to TD-208 LED on AC Kit
 - Cable is 15 feet, and should be trimmed to fit by the connecting electrician

ELECTRICIAN WIRING INSTRUCTIONS

These wiring instructions will take you through the process of disconnecting the Flock camera from the power source, connecting the AC kit to the power source, testing the connections, and reconnecting the camera. Please read the instructions thoroughly and ask questions if needed.

Notes

- Line voltage input utilizes standard single-phase 120VAC to 240VAC (up to 277VAC for North America standards ONLY).
- You may need a ladder as AC Kits are installed in close proximity to the cameras.

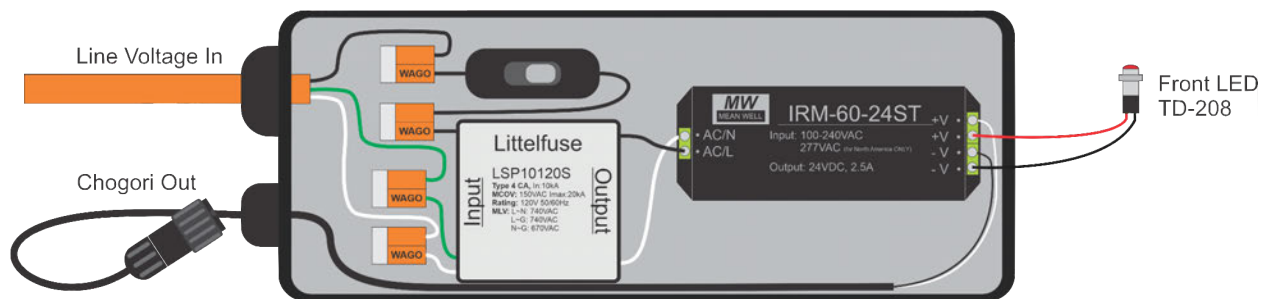

Steps

1. Locate the AC Kit that you will be connecting.
2. Disconnect the Chogori cable from the back of the Falcon.
3. Run line voltage in and conduit to the box through the larger cable gland at the bottom of the polycase, according to NEC Article 300 and any applicable local codes. The gland accepts ½" conduit.
4. Open the polycase.
5. Ensure that the rocker switch inside is in the "off" position.
6. The internal circuitry uses Live (black), Neutral (white), and Ground (green) connections to the Littelfuse LSP10120S surge protector. Ensure the identity of

each incoming wire in the event that color convention may differ from expectations.

7. Strip the outermost cable jacket to expose 2-3in of individual wire feeds.
8. Strip approximately ¼ in of each wire jacket to use in connection with each Wago connector.
9. Lift the orange tab on the Wago connector and insert the exposed conductor.
10. Close the orange tab and lightly pull on the wire to confirm that the connection is secure.
11. Ensure that no exposed conductor material is visible outside of the Wago.
12. Carefully disconnect the +V and -V connections for the Chogori cable.
13. Pull the excess cable in through the grommet until there is only enough on the exterior for the connection running from the camera to the AC Kit.
14. Strip the jacket and trim the wires down until they will neatly fit within the kit.
15. Reconnect the +V and -V connections, and make sure they are secure.
16. Once all wires have been securely set, flip the rocker switch to the “on” position to test connectivity.
17. Ensure the red LED (TD-208) powers on and off as expected when flipping the switch. If the LED does not power on and off, you will need to verify the power input and electronics.
18. Once power has been verified, you may reconnect the AC Kit to the Falcon via the Chogori connector that was disconnected in Step 2.

Visual Wiring Guide

FREQUENTLY ASKED QUESTIONS

1. Who is responsible for contracting the electrician?

The customer is responsible for contracting an electrician. We can help answer

questions, but the customer is responsible for identifying and contracting the electrician.

2. Who is responsible for maintenance?

Flock will handle all maintenance related to the camera and related equipment installed by Flock. However, any problems with the electrical supply are the responsibility of the customer. The AC Kit has a light to indicate the presence of power, making it easy for quick diagnosis if there is a problem related to the AC power source. In the event that a camera indicates that there is a power supply problem, Flock will notify the customer and request that the customer verify the light on the AC Kit. If the AC Kit light is illuminated, Flock will send a technician to investigate. If the AC Kit light is not illuminated, the customer should check any GFCIs or breakers in the supply circuit or call the electrician who installed the power supply to investigate.

3. How much does it cost?

The work required to bring AC power to each location is dependent on many variables and will differ in each area, so exact pricing is not possible. The primary driver of this cost will be the distance from the AC power source to the intended camera location.

4. What information do I need to provide my electrician?

The Flock deployment plan and the above work instructions should be sufficient to secure a quote. It will be helpful if you know the location of the existing power infrastructure before creating the deployment plan.

5. Can you plug the camera into my existing power outlet?

The Flock AC power adapter does not use a standard outlet plug and must be directly wired into the power mains. While using outlet plugs may be convenient, they can easily be unplugged presenting a tampering risk to this critical safety infrastructure. If an outlet is close to the camera, the electrician can route power directly to the camera with a direct wire-in connection.

6. How long does this process typically take?

The installation process typically takes 6-8 weeks after the locations are sent to the field operations team. In order to accelerate the process, be sure to have the electrician perform their work shortly after the Flock technician finishes installing the camera.

7. What kind of electrician should I look for?

Any licensed electrician should be able to perform this work. In the past, we have found that those who advertise working with landscape lighting are well-suited for this task.

8. What happens if the electrician damages the equipment?

As the customer is responsible for contracting the electrician, any liability associated with this work would be assumed by the customer. If any future work is required at this site due to the electrical infrastructure or the work performed by the electrician the cost would be the responsibility of the customer.

9. When should the electrician perform his work?

You will receive an email notifying you of the installation date. You may schedule the technician for later that date or one of the following days after.

If you wait until after the installations you will receive an email alert letting you know that the job has been completed. You would then need to schedule the electrician to route power to the pole.

10. How much time do I have after the installation to get an electrician?

You will want to have an electrician come out as soon as possible once the installation is complete. Waiting too long for a hookup will lead to a drained battery which requires a technician visit and will incur a fee.

11. Can I have the electrician set up the power before the cameras are installed?

The technicians can only put up the camera and the AC Kit. Since they are not licensed electricians they will not be able to connect the live power to the AC Kit, and your electrician would have to make a second trip to connect the power to the kit. We strongly recommend scheduling the electrician for after the installation.

12. What if the AC power is on a timer?

The AC Kit is able to function with AC power on timers. If the electrician has any questions when looking at the wiring diagram please let us know so we can assist.

flock safety

Hi Kyle Murphy,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity	Status	Visit Type	Completed/Scheduled Date
Location Name			
11 - Crawford/Old Glenview (NB)	Scheduled	Site Survey	1/24/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Subject: Glencoe IL PD has shared a Hot List with you!

Great News!

Ryan McEnerney at Glencoe IL PD has shared their custom Hot List with you, giving you and your organization the ability to collaborate more effectively.

To begin receiving hits for this list, you must enable your organization as an audience.

1. Click on **Alerts** in the top navigation bar
2. Click on **Custom Hot List** in the sub-navigation bar
3. Scroll down to the **Shared Lists** section at the bottom of the page
4. Click on the triple dots next to the list you want to enable and select **Edit**
5. Change the audience from 'None' to 'Entire Organization'
6. Click **Save Change**

Thanks for being part of the Flock.

Hi, Sam, this is Dan Murdock from Flock Safety. I wanted to reach back out to you. In the New Year, Flock has kind of reoriented some of their pricing around Flocka West and the prices come down for departments in your guys just foreign group level. I wanted to catch back up with you and see if this new price point might be a little bit more and typing to Matt. When you get a chance give me a call back. My Direct Line is 31241538584. Talk soon.

You received a voice mail from [8472561200](tel:8472561200).

Thank you for using Transcription! If you don't see a transcript above, it's because the audio quality was not clear enough to transcribe.

Subject: Wilmette PD Please Join Us for the Flock Safety User Adoption Webinar!

Hello!

I wanted to personally invite you to our webinar focused on helping you **boost the adoption** of the Flock Safety system within your organization.

Increased adoption by your users will have a direct impact on the number of **crimes solved** in your community. Come learn from several agencies about how they maintain high adoption across their Flock Safety users.

[REGISTER HERE!](#)

Flock Safety | Boosting Your Agency's Adoption

When: Wednesday, February 14th @ 1PM EST

Where: Register using the link in the email

Why: Join us to hear from command staff who have fostered remarkable adoption of the Flock system in their agencies, learn about tracking successes in the Flock system, and hear best practices that could help you and your department.

Eliminate crime and shape a safer future, together.

f'lock safety

We look forward to seeing you there!

This message originated from an external source. Please use caution in handling it.

flock safety

Hi Kyle Murphy,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity			
Location Name	Status	Visit Type	Completed/Scheduled Date
09 - Greenbay/Ashland (SB)	Scheduled	Installation	2/5/2024
10 - 1700 Block Sheridan (SB)	Scheduled	Installation	2/6/2024
12 - Hibbard @ Sprucewood. (SB)	Scheduled	Installation	2/5/2024
13 - Isabella/CTA tracks (WB)	Scheduled	Installation	2/5/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

flock safety

Hi Kyle Murphy,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity	Status	Visit Type	Completed/Scheduled Date
Location Name			
20 - Laramie/Lake (SB)	Scheduled	Installation	2/6/2024
21 - Old Glenview/Hibbard (EB)	Scheduled	Installation	2/6/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Subject: Re: Wilmette Install
Attachments: AC Kit Handout [2023].pdf

Howdy Sir -

Wow you're right!

It looks like your installations were rescheduled to 2/5 & 2/6 (from 3/5 & 3/6).

We do oftentimes have shifts in the schedule but they usually aren't a whole month earlier so I hope that this does not cause any issues!

It looks like all of the below cameras have been successfully installed:

[09 - Greenbay/Ashland \(SB\)](#)

[10 - 1700 Block Sheridan \(SB\)](#)

[12 - Hibbard @ Sprucewood. \(SB\)](#)

[13 - Isabella/CTA tracks \(WB\)](#)

[20 - Laramie/Lake \(SB\)](#)

[21 - Old Glenview/Hibbard \(EB\)](#)

These are currently hibernating and are ready to be hooked up to AC Power at your earliest convenience.

Camera 11 is pending an installation date from our IDOT install vendor.

Since this camera is in IDOT ROW it has to use a different pole and base that we are waiting to be delivered to our warehouse. We are aiming to have this pole installed this month but I will send over that date as soon as I am able to.

I will send over that install date for Cam 11 as soon as it is scheduled but please let me know if you have any questions in the meantime or need any additional information from Flock in order to hook these cameras up to AC Power.

Thank you!

AC Kit Handout

Flock Safety is a leading provider of license plate recognition (LPR) cameras for community-wide safety. Our camera system is designed to be infrastructure-free, using cellular networking and solar power; however, there are certain deployments that have limited access to sunlight and require AC power. Flock offers an easy-to-use AC Kit that enables our customers to work with local electricians to route power to the cameras after it has been installed. This results in an efficient quote and installation process.

This document covers:

1. The AC Kit Installation process
2. Electrician Installation Steps
3. Frequently Asked Questions

If you have any questions, please reach out to your project manager.

AC KIT INSTALLATION PROCESS

1. Create Deployment Plan With Flock

Your Flock representative will work with you to select the best location(s) for your Flock device(s). For locations that may require AC power, it will be helpful for you to know where the closest AC power is available so that we can select the closest workable location.

2. Get a Quote From the Electrician

Once the locations have passed through the approval process, provide the electrician of your choice with this document and the finalized deployment plan. Ask them to quote running AC power to the intended camera location and connecting power to the camera as described in the instructions in this document. Explain that we will install the camera and AC Kit first, and their work will be completed afterward.

3. Sign Flock Safety Agreement

Once you know the cost of the electrician you will need to sign the Flock Safety purchase order to begin the installation of the cameras.

4. Flock Performs Site Survey

Flock will mark each camera location from the deployment plan. Local 811 centers will be contacted to have underground utilities located and marked if they are present in the area. Please note that this process can take up to seven business days depending on the individual utility centers' backlogs. If the pole is existing, the 811 process will not need to be completed.

5. Flock Installs the Camera

A Flock technician will install the camera(s) and AC Kit(s) at the specified location(s). Flock will send you an email once our devices have been successfully installed, letting you know that the site is ready for the next step.

6. Electrician Connects Power

Your chosen electrician will run power and make connections inside the Flock-installed AC Kit at the bottom of the camera pole. Once they confirm that everything is working correctly, notify your project manager, and we will begin the final part of the installation process.

7. Locations Validated

Once power has been run to the camera, it will go through the validation process – where Flock will confirm that everything is running to our standards. Once this process has been completed, you will be given access to the Flock system and a training call will be set up so you can learn how to use it.

AC KIT SPECIFICATIONS

1. The AC Kit is available in 120VAC and 240VAC Variants.
2. The AC Kit can be pole or hard-surface mounted. The underside of the polycase container has two sets of slits that allow for two hose clamps to slip through for pole mounting. There are 4 [feet] on the surface-mounted kits for it to be securely screwed to the mounting surface.
 - For 3" poles, the minimum requirement for a hose clamp is SAE Size 56 (13" Length)
 - The minimum length requirement for Tapcon screws is 1 ¼" when mounting to hard surfaces

3. The AC Kit contains AC-to-DC conversion and surge protection circuitry inside. The kit comes pre-wired with a physical rocker switch on the AC line (Live) to de-power the kit.
 - Power Converter: IRM-60-24ST
 - Surge Protector: LSP10120S
 - Live AC powers LED on the front of Polycase
 - Live AC charges Falcon with 24VDC (60W) output
4. Each AC Kit will have a Chogori cable extending out from the bottom end of the container.
 - Runs parallel to TD-208 LED on AC Kit
 - Cable is 15 feet, and should be trimmed to fit by the connecting electrician

ELECTRICIAN WIRING INSTRUCTIONS

These wiring instructions will take you through the process of disconnecting the Flock camera from the power source, connecting the AC kit to the power source, testing the connections, and reconnecting the camera. Please read the instructions thoroughly and ask questions if needed.

Notes

- Line voltage input utilizes standard single-phase 120VAC to 240VAC (up to 277VAC for North America standards ONLY).
- You may need a ladder as AC Kits are installed in close proximity to the cameras.

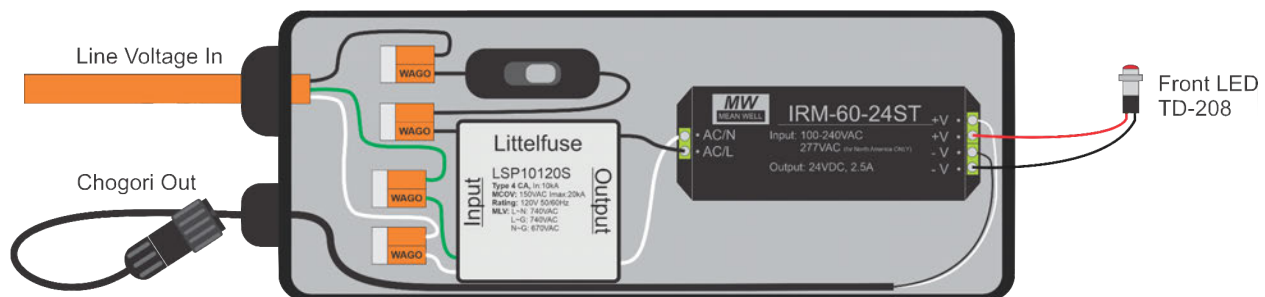

Steps

1. Locate the AC Kit that you will be connecting.
2. Disconnect the Chogori cable from the back of the Falcon.
3. Run line voltage in and conduit to the box through the larger cable gland at the bottom of the polycase, according to NEC Article 300 and any applicable local codes. The gland accepts ½" conduit.
4. Open the polycase.
5. Ensure that the rocker switch inside is in the "off" position.
6. The internal circuitry uses Live (black), Neutral (white), and Ground (green) connections to the Littelfuse LSP10120S surge protector. Ensure the identity of

each incoming wire in the event that color convention may differ from expectations.

7. Strip the outermost cable jacket to expose 2-3in of individual wire feeds.
8. Strip approximately ¼ in of each wire jacket to use in connection with each Wago connector.
9. Lift the orange tab on the Wago connector and insert the exposed conductor.
10. Close the orange tab and lightly pull on the wire to confirm that the connection is secure.
11. Ensure that no exposed conductor material is visible outside of the Wago.
12. Carefully disconnect the +V and -V connections for the Chogori cable.
13. Pull the excess cable in through the grommet until there is only enough on the exterior for the connection running from the camera to the AC Kit.
14. Strip the jacket and trim the wires down until they will neatly fit within the kit.
15. Reconnect the +V and -V connections, and make sure they are secure.
16. Once all wires have been securely set, flip the rocker switch to the “on” position to test connectivity.
17. Ensure the red LED (TD-208) powers on and off as expected when flipping the switch. If the LED does not power on and off, you will need to verify the power input and electronics.
18. Once power has been verified, you may reconnect the AC Kit to the Falcon via the Chogori connector that was disconnected in Step 2.

Visual Wiring Guide

FREQUENTLY ASKED QUESTIONS

1. Who is responsible for contracting the electrician?

The customer is responsible for contracting an electrician. We can help answer

questions, but the customer is responsible for identifying and contracting the electrician.

2. Who is responsible for maintenance?

Flock will handle all maintenance related to the camera and related equipment installed by Flock. However, any problems with the electrical supply are the responsibility of the customer. The AC Kit has a light to indicate the presence of power, making it easy for quick diagnosis if there is a problem related to the AC power source. In the event that a camera indicates that there is a power supply problem, Flock will notify the customer and request that the customer verify the light on the AC Kit. If the AC Kit light is illuminated, Flock will send a technician to investigate. If the AC Kit light is not illuminated, the customer should check any GFCIs or breakers in the supply circuit or call the electrician who installed the power supply to investigate.

3. How much does it cost?

The work required to bring AC power to each location is dependent on many variables and will differ in each area, so exact pricing is not possible. The primary driver of this cost will be the distance from the AC power source to the intended camera location.

4. What information do I need to provide my electrician?

The Flock deployment plan and the above work instructions should be sufficient to secure a quote. It will be helpful if you know the location of the existing power infrastructure before creating the deployment plan.

5. Can you plug the camera into my existing power outlet?

The Flock AC power adapter does not use a standard outlet plug and must be directly wired into the power mains. While using outlet plugs may be convenient, they can easily be unplugged presenting a tampering risk to this critical safety infrastructure. If an outlet is close to the camera, the electrician can route power directly to the camera with a direct wire-in connection.

6. How long does this process typically take?

The installation process typically takes 6-8 weeks after the locations are sent to the field operations team. In order to accelerate the process, be sure to have the electrician perform their work shortly after the Flock technician finishes installing the camera.

7. What kind of electrician should I look for?

Any licensed electrician should be able to perform this work. In the past, we have found that those who advertise working with landscape lighting are well-suited for this task.

8. What happens if the electrician damages the equipment?

As the customer is responsible for contracting the electrician, any liability associated with this work would be assumed by the customer. If any future work is required at this site due to the electrical infrastructure or the work performed by the electrician the cost would be the responsibility of the customer.

9. When should the electrician perform his work?

You will receive an email notifying you of the installation date. You may schedule the technician for later that date or one of the following days after.

If you wait until after the installations you will receive an email alert letting you know that the job has been completed. You would then need to schedule the electrician to route power to the pole.

10. How much time do I have after the installation to get an electrician?

You will want to have an electrician come out as soon as possible once the installation is complete. Waiting too long for a hookup will lead to a drained battery which requires a technician visit and will incur a fee.

11. Can I have the electrician set up the power before the cameras are installed?

The technicians can only put up the camera and the AC Kit. Since they are not licensed electricians they will not be able to connect the live power to the AC Kit, and your electrician would have to make a second trip to connect the power to the kit. We strongly recommend scheduling the electrician for after the installation.

12. What if the AC power is on a timer?

The AC Kit is able to function with AC power on timers. If the electrician has any questions when looking at the wiring diagram please let us know so we can assist.

flock safety

Hi Michael Clark,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity			
Location Name	Status	Visit Type	Completed/Scheduled Date
20 - Laramie/Lake (SB)	Completed	Installation	2/6/2024
21 - Old Glenview/Hibbard (EB)	Completed	Installation	2/6/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Howdy Sir -

Wow you're right!

It looks like your installations were rescheduled to 2/5 & 2/6 (from 3/5 & 3/6).

We do oftentimes have shifts in the schedule but they usually aren't a whole month earlier so I hope that this does not cause any issues!

It looks like all of the below cameras have been successfully installed:

[09 - Greenbay/Ashland \(SB\)](#)
[10 - 1700 Block Sheridan \(SB\)](#)
[12 - Hibbard @ Sprucewood. \(SB\)](#)
[13 - Isabella/CTA tracks \(WB\)](#)
[20 - Laramie/Lake \(SB\)](#)
[21 - Old Glenview/Hibbard \(EB\)](#)

These are currently hibernating and are ready to be hooked up to AC Power at your earliest convenience.

Camera 11 is pending an installation date from our IDOT install vendor.

Since this camera is in IDOT ROW it has to use a different pole and base that we are waiting to be delivered to our warehouse. We are aiming to have this pole installed this month but I will send over that date as soon as I am able to.

I will send over that install date for Cam 11 as soon as it is scheduled but please let me know if you have any questions in the meantime or need any additional information from Flock in order to hook these cameras up to AC Power.

Thank you!

Howdy Sir -

We have created a Work Order for **Camera 20 - Laramie/Lake (SB)** and I am just pending our Field Team to schedule that maintenance (replace and test the equipment). I will have a date for you shortly!

In better news, the pole installation for **Camera 11 (Crawford/Old Glenview (NB))** has been tentatively scheduled for next week (aiming for 2/20)! This date is tentative, but you will be notified if it changes.

As long as we do not run into any utility conflicts, we will be able to schedule the camera and solar panel installations shortly thereafter.

I will send over your maintenance date for Camera 20 ASAP but please let me know if you have any questions and feel free to refer to your updated [Tracker](#) in the meantime.

Thanks,

Howdy Sir -

Wow you're right!

It looks like your installations were rescheduled to 2/5 & 2/6 (from 3/5 & 3/6).

We do oftentimes have shifts in the schedule but they usually aren't a whole month earlier so I hope that this does not cause any issues!

It looks like all of the below cameras have been successfully installed:

[09 - Greenbay/Ashland \(SB\)](#)

[10 - 1700 Block Sheridan \(SB\)](#)

[12 - Hibbard @ Sprucewood. \(SB\)](#)

[13 - Isabella/CTA tracks \(WB\)](#)

[20 - Laramie/Lake \(SB\)](#)

[21 - Old Glenview/Hibbard \(EB\)](#)

These are currently hibernating and are ready to be hooked up to AC Power at your earliest convenience.

Camera 11 is pending an installation date from our IDOT install vendor.

Since this camera is in IDOT ROW it has to use a different pole and base that we are waiting to be delivered to our warehouse. We are aiming to have this pole installed this month but I will send over that date as soon as I am able to.

I will send over that install date for Cam 11 as soon as it is scheduled but please let me know if you have any questions in the meantime or need any additional information from Flock in order to hook these cameras up to AC Power.

Thank you!

Howdy Sir -

We have created a Work Order for **Camera 20 - Laramie/Lake (SB)** and I am just pending our Field Team to schedule that maintenance (replace and test the equipment).
I will have a date for you shortly!

In better news, the pole installation for **Camera 11 (Crawford/Old Glenview (NB))** has been tentatively scheduled for next week (aiming for 2/20)!
This date is tentative, but you will be notified if it changes.

As long as we do not run into any utility conflicts, we will be able to schedule the camera and solar panel installations shortly thereafter.

I will send over your maintenance date for Camera 20 ASAP but please let me know if you have any questions and feel free to refer to your updated [Tracker](#) in the meantime.

Thanks,

Subject: Upcoming Flock Activities - IL - Wilmette PD

flock safety

Hi Michael Clark,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity	Status	Visit Type	Completed/Scheduled Date
Location Name			
07 - Sheridan/Canterbury (NB)	Completed	Maintenance - Replace Equipment	2/12/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

flock safety

Hi Michael Clark,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity	Status	Visit Type	Completed/Scheduled Date
Location Name			
07 - Sheridan/Canterbury (NB)	Completed	Maintenance - Replace Equipment	2/12/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Subject: Upcoming Flock Activities - IL - Wilmette PD

flock safety

Hi Landon Girard,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity	Status	Visit Type	Completed/Scheduled Date
Location Name			
20 - Laramie/Lake (SB)	Scheduled	Maintenance - Replace Equipment	2/20/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Site Survey: The technician will confirm that the locations previously agreed upon will work for the installation. The technician will place white flags at each location according to the plan you approved.

Installation: The technician will follow the plan based on the results of the site survey.

Maintenance: Our systems have identified an issue with your camera and a technician will be onsite to resolve the issue.

Stay Safe,
Your Flock Safety Team

Subject: Upcoming Flock Activities - IL - Wilmette PD

flock safety

Hi Kyle Murphy,

Below you will find a summary of upcoming activities related to your Flock Safety network.

Recent Activity	Status	Visit Type	Completed/Scheduled Date
Location Name			
20 - Laramie/Lake (SB)	Scheduled	Maintenance - Replace Equipment	2/20/2024

Status:

Scheduling: We are actively scheduling the technician visit - be that for a pre-installation site survey or the installation. Be on the lookout for the dispatched appointment within the next week or two.

Scheduled: Barring unforeseen circumstances, the technician will be onsite for your site survey or installation on this date.

Completed: The technician has completed the visit. Next step: the experts are in the process of confirming that your cameras are functioning properly (receiving adequate sunlight, connecting regularly to the cellular network, taking high-quality images, etc.). Once that part is complete, we will grant access to your camera footage.

Visit Types:

Subject: Incorrect Bill

Attachments: DOC022924-02292024115908.pdf

Sir or Ma'am,

Attached is the bill I received for the recent installation of cameras. The bill lists 5 cameras. We actually had 7 cameras installed. I believe all of these cameras were on non-Illinois Department of Transportation roadways.

Can you send me an amended bill so I can process it please?

The bill should reflect 7 cameras installed with the appropriate installation fees. If you need more information please let me know. Thanks.

Mike

Subject: Call and Info

Hailey,

Can we schedule a quick conference call to discuss the installation of our camera that was being held up by the Cook County Permit. It is now going on the high school property. I think we have a tentative plan with the village and high school. There is information that we need to share with Flock. Let me know. Thanks.

Chief

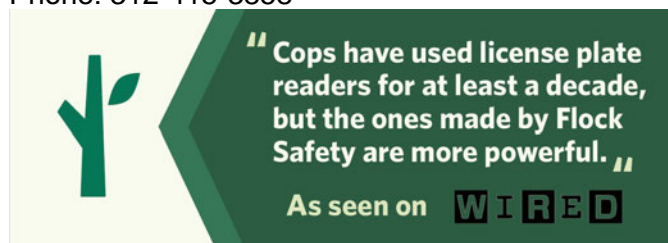

We hope to see you at [Flock Forward](#), our inaugural customer conference created exclusively for Police Chiefs and Command Staff. The event will be held at the [Loews Atlanta](#), with a nightly rate of \$173, from June 12th to 14th. Space is limited so be sure to secure your spot by registering [here](#).

Here's what to expect: <https://www.flocksafety.com/flock-forward-2024>

- Discuss the future of policing
- Learn strategies for driving up clearance rates
- Get training on how to set up and run a Real Time Crime Center (RTCC)
- Discover the latest innovations in public safety technology
- Share knowledge with 500 Police Chiefs and Command Staff

Please let me know if you have any questions. We look forward to seeing you in Atlanta!

Howdy Sir -

My sincere apologies for the delay in getting back to you here!!

Are you referring to [#05 \(New\) Lake West of I94 \(WB\)](#) ?

This is the camera that was slated to be installed on Loyola Academy property (we were just pending their written permission).

As long as we have their written permission (Loyola Academy's) I can go ahead and get this installation scheduled!

Please let me know if we are clear to proceed or if you would like to [set up a call](#) to discuss further.

Thanks,

Hailey,

Can we schedule a quick conference call to discuss the installation of our camera that was being held up by the Cook County Permit. It is now going on the high school property. I think we have a tentative plan with the village and high school. There is information that we need to share with Flock. Let me know. Thanks.

flock safety

Let's eliminate crime and
shape a safer future, together.

Hi there,

We received an alert regarding power connectivity from Flock Safety camera **06 - Illinois (EB) @ Sprucewood at IL - Willmette - PD - Part 1 A**. At your earliest convenience, could you please help ensure that power is flowing normally to the AC box?

Please follow the below steps to check your power source and prevent prolonged camera downtime.

Confirm the red light is glowing on the rectangular box that feeds a wire to the camera:

- **If the Red light is not lit (Off)**, please have a professional check your incoming power for potential issues such as a tripped circuit breaker or damaged power line. Please look carefully as the light can be faint in daylight.
- **If the Red light is lit (On)**, please reply to this message or email Flock Safety via support@flocksafety.com and let our team know so that we can send a technician out to troubleshoot.

Note: Some models have a Green light; if this is the case, please report whether it is On or Off.

Thank you for your assistance, and stay safe,
Flock Safety Support

DC,

I will let Hailey answer question 1, but I can hop on a billing related call. How does today at 2 or 3 or tomorrow at 9:15 or 3 work for you.

Regards,

Hailey and Other Flock Reps,

I have two items for you:

1. We are not clear to proceed with Camera #5. We need to get an MOU with Loyola Academy which the Village is working on. As part of this they are obtaining a plat of survey to potentially create an easement. There is going to be a meeting with the Village, Loyola, and the survey crew that is tentatively scheduled for the week of March 25. Is there a rep from Flock that could attend this meeting just in case the position of the camera needs to be adjusted?
2. Do any of you have a contact in the billing department? Attached is a bill we received after our latest 7 cameras were installed about a month ago. The amount is incorrect, and I cannot submit this for payment because it is incorrect. I e-mailed billing on 2/29/24 and have not been able to get a response from them to correct this situation. The bill should reflect 7 cameras installed and 7 cameras.

Thanks.

Mike

Howdy Sir -

My sincere apologies for the delay in getting back to you here!!

Are you referring to [#05 \(New\) Lake West of I94 \(WB\)](#) ?

This is the camera that was slated to be installed on Loyola Academy property (we were just pending their written permission).

As long as we have their written permission (Loyola Academy's) I can go ahead and get this installation scheduled!

Please let me know if we are clear to proceed or if you would like to [set up a call](#) to discuss further.

Thanks,

Hailey,

Can we schedule a quick conference call to discuss the installation of our camera that was being held up by the Cook County Permit. It is now going on the high school property. I think we have a tentative plan with the village and high school. There is information that we need to share with Flock. Let me know. Thanks.
