Hi Ponha and Kameron,

Just a quick update — I haven't forgotten about you. I'm actively working on the necessary approvals this morning and aiming to have everything finalized by this afternoon.

I'm available via call, text, or email today and tomorrow if any questions come up.

Best,
Judd

Hi Judd,

I talked to Kameron this morning and he directed me to the Flock dashboard to check the deployment tracker. Here's a screenshot of what I see (weird, won't let me scroll down). I see that it's awaiting customer approval, but I don't have an "approve" button. Can you check with your team and let them know this relocate has been approved?
