## Release Notes 7.3.0

### Features & Enhancements

- The fususTIPS form will allow submitters to request to not be contacted when sending a tip.
- App store integration guides are always available
- Users can bulk assign cameras when adding them to floors at a location.
- Continuous PTZ controls includes a slider to control the speed of the PTZ movement.

---

### Bug Fixes & Maintenance

- Fixed logout button bug where menu opens prematurely
- Fixed bug where LPR vendor list loaded continuously
- Fixed bug where notes for icons did not update
