Flock Safety Webinar

Did you know that spending a significant amount of money on equipment alone will not guarantee the success of a Real-Time Crime Center (RTCC)? In fact, a single proactive individual that's empowered with the right tools can be just as effective as an RTCC that costs millions.

[Join us](#) on Thursday, January 25th at 2 p.m. ET / 11 a.m. PT, **Captain Jacob Johnston from Tulsa PD**, and **Flock Safety's Director of RTCC Strategy, Dalton Webb**, will discuss:

- The imperative role that Real-Time Crime Centers (RTCCs) play, no matter the size of your agency
 - Six steps to develop a Level 1 Real-Time Crime Center
 - How Tulsa PD overcame budget, personnel, and technology obstacles to successfully open their Real-Time Investigative Center (RTIC) last year, just in time for an unprecedented flooding event
-

REGISTER NOW

P.S. Can't make it? [Register](#) anyway, and we'll send you the recording.

Mike,

One of my guys, Brian Bonev keeps getting batches (APROX 100) of emails from a hotlist from SOS, we have SOS hits shut off, he does not have any hotlists created. Some of these hits are from all over the state Minooka etc. I'm not sure what happened.

Hi there,

Thank you for contacting support. I reviewed the user's history and it looks like they had *every* camera in the network selected to receive Alerts from. They have updated the camera selection so this should not happen moving forward.

Our system is trying to send out the emails on time, but they are being deferred and dropped all at once. We are receiving the following mail error:

temporary failure for one or more recipients (bbonev@cityhpil.com:deferred)

This may be related to the number of alerts that were being sent out due to the camera selections. If the issue continues please get in touch with your IT department to whitelist or add hotlist@flocksafety.com to their allowed sender's list and 143.55.226.15 is our dedicated IP for our mailserver.

I hope this information helps! Please let me know if you have additional questions.

Stay safe,
Nina

[EXTERNAL EMAIL]

Good morning Chief Jogmen,

We reviewed your request below pertaining to the potential County involvement in the placement of an ALPR along Half Day Rd. While our Lake County Division of Transportation (LCDOT) oversees a permitting process for ALPR placement on County Roads, it is important to note that Half Day Rd. falls under the jurisdiction of the Illinois Department of Transportation (IDOT), being a State Highway (IL Rte. 22).

IDOT, like LCDOT, has a formal permitting process. We recommend that the City reaches out to IDOT to ascertain whether a permit is required for the proposed ALPR placement.

Unless the ALPR will be placed outside of the road right of way on private property, Lake County has no further involvement with this request.

Please let me know of any questions or comments directly.

Have a great week,
Matt

Good morning Commissioner Parekh,

In the interest of public safety, the City of Highland Park is currently implementing an automated license plate reader (ALPR) network. We have contracted with Flock Safety and are in the process of installing cameras on or near those roadways where traffic enters into our community. Based on the recommendation of our vendor, we are seeking to install a camera on Half Day Road capturing eastbound traffic. The recommended location is approximately 11373 Half Day Road which falls under Lake County's jurisdiction. As explained in the attached letter, we are seeking permission from Lake County to install a camera at this location. Given this location falls in your district, we thought it appropriate to start the process with you. If Lake County ultimately supports this request and this letter is not the preferred method of approval, I would be happy to facilitate any additional steps that would be required.

Thank you for your consideration. Please let me know if you have any questions or if you need additional information.

Thank you

Good afternoon,

After speaking internally and figuring out the best option forward without having to go to City Council we came to the conclusion of paying this outstanding invoice currently, and your 5 year deal year 1 will be credited \$45k due to your original contract was signed as service dates begin at Last Camera Validation and since that is not installed yet, your service dates have not begun.

Please let me know if you have any questions.

Thank you,
Alison Labowicz

Howdy Sir -

Thank you for your time last week!

I just wanted to confirm that **Cameras 10 & 21** were submitted to IDOT 1/17 for permit review/approval.

We are showing on our end that the targeted location for Camera 21 (the location that was submitted to IDOT) is in Deerfield Jx. Are you OK with us keeping this location (since it is showing Deerfield)?

I know you had wanted us to shift it further West but it's showing OK on our end in this location - Just wanted to double check!

Please see the below updates for your other outstanding LPRs -

Camera 6 (GreenBay/County Line - (NB)) - tentatively scheduled for installation 1/26.

Camera 5 (Sheridan/Deere Park (NB)) - pending iDOT permit submittal

Cams 3, 4, 11 & 20 - Kimley Horn received OPERs and Bonds on 1/19. Working on creating the final permitting package to mail to IDOT. Once IDOT has this they will approve the permits.

I will check back in closer to the installation date for Camera 6 but please let me know if you have any questions and feel free to refer to your updated [Tracker](#) in the meantime.

Thanks!

[EXTERNAL EMAIL]

Howdy Sir -

My **sincere** apologies for the delay in getting you over this update!

Please see below -

Cam 6 - Installing

Installation tentatively scheduled 1/2

Cam 10 & 21 - Pending IDOT Permit Submittal

Submission to IDOT est by 12/22 (EOW)

*Cam 21 is in Deerfield Jurisdiction. IDOT is going to want to know if they approve of this location before they will review the permit.

Deerfield will also need to sign the OPER/Bond paperwork to finalize the permit

Do you know if Deerfield would be willing to do that on Highland Park's behalf? *Neither of these are anywhere near Deerfield

Cams 3, 4, 11 & 20 - Pending IDOT Permit Approval

OPER documents sent to PD - Once IDOT receives the OPER they will approve the permits.

Do you know if these have been signed and mailed off to Cowan Electric yet? Yes, these were sent approximately two weeks ago

My apologies if they have been, just wanted to double check!

If not, please see the instructions below (detailed instructions [here](#)) -

-Please print the attached document out Four (4) times and sign and date with pen under "Applicant Signature"

-Mail all 4 copies to our IDOT Approved Contractor to sign as well:

Cowan Electric

ATTN: Dawn Cowan

PO Box 5066

Elgin, IL 60121

Cam 5 (Sheridan/Deere Park (NB)) - New Location Needed - Pending PD Approval

This location was shifted to the private property location at (42.149459, -87.760626)

Do you approve of this new location?

Once approved and we have property owner permission we can get this installed ASAP *** I was asked to get permission from The Village of Glencoe for this camera which I did in March, Can we install it further South in Glencoe?**

Please let me know your thoughts on the above or if you have any questions.

Again, my sincere apologies for the gap in communication here - I will be sending out biweekly updates moving forward to help avoid this issue in the future!

Feel free to refer to your updated [Tracker](#) in the meantime.

Thank you for your patience,

[EXTERNAL EMAIL]

Howdy Sir -

My apologies for the delay in getting you over a response!

I am new to Illinois and it has taken a second to get my bearings.

Please see the below quick update regarding your Flock Cameras -

IL - Highland Park - PD

Cams 9, 14, 12, 8, 16, 2, 22, 19, 9, 15, 17 & 1 - Installed & In Service

Cam 6 (Green Bay/County Line) - Pending City Approval

Unable to install in the original location due to utilities in the area
Reached out to Ron Bannon (Dir. PW) today to see if they would allow us to install on the neighboring traffic signal instead - Pending his response

Cam 10 (Skokie Hwy Exit Ramp/Half Day) - Pending IDOT Permit Approval

Working with our permitting team to determine the status of the IDOT permit here.

Cams 7 & 18 - Ready for Install

Were previously on hold due to construction in the area
Pushed back over to the Field Team to get scheduled for installation - Will let you know the installation date asap

IL - Highland Park - PD

Cams 3, 4, 11 & 20 - Pending IDOT Permit Approval

OPER sent to y'all (PD) by Flock on 11/2 - Please let me know if you need that re-sent!
Once IDOT has the OPER (to be sent in by the PD) and the Bond (handled by Flock) they will approve these permits

Cam 21 (Half Day/Kelly) - Pending Property Owner Permission

Do you know if an agreement (IGA) has been completed with the Lake County Forest Preserve District (or have they given permission for this camera) here?
Once we have their go-ahead we can move forward with this installation

Cam 5 (Sheridan/Deere Park) - Pending IDOT Permit

Originally identified as needing a city permit but they have now confirmed that an IDOT permit will be needed instead
Working with my permitting team to get this submitted over to IDOT ASAP

Feel free to refer to your [Tracker](#) for a more detailed look at each of your Flock cameras, as well as a link to your Deployment Plan.

Moving forward, I will be sending out biweekly permitting updates and will also let you know once Cams 7 & 18 have been scheduled for installation.

Please let me know if you have any questions!

Thank you for your patience,

Mike

Please confirm that HPPD is not sharing their Flock Cameras with other jurisdictions. This is our goal to do so in the near future; I don't want to screw anything up in the time being. We have had ten cameras operational for a while, but six non-IDOT-permitted cameras have yet to be installed. May I please also get a status on our IDOT permits. I would like to know how we will be credited or charged for this year since more than half of our allocated cameras have not been in use this year.

[EXTERNAL EMAIL]

Good morning Chief Jogmen,

We reviewed your request below pertaining to the potential County involvement in the placement of an ALPR along Half Day Rd. While our Lake County Division of Transportation (LCDOT) oversees a permitting process for ALPR placement on County Roads, it is important to note that Half Day Rd. falls under the jurisdiction of the Illinois Department of Transportation (IDOT), being a State Highway

(IL Rte. 22).

IDOT, like LCDOT, has a formal permitting process. We recommend that the City reaches out to IDOT to ascertain whether a permit is required for the proposed ALPR placement.

Unless the ALPR will be placed outside of the road right of way on private property, Lake County has no further involvement with this request.

Please let me know of any questions or comments directly.

Have a great week,
Matt

THIS EMAIL IS FROM AN EXTERNAL SENDER

DO NOT Click links, open attachments, or provide sensitive information if the sender is unknown.

Good morning Commissioner Parekh,

In the interest of public safety, the City of Highland Park is currently implementing an automated license plate reader (ALPR) network. We have contracted with Flock Safety and are in the process of installing cameras on or near those roadways where traffic enters into our community. Based on the recommendation of our vendor, we are seeking to install a camera on Half Day Road capturing eastbound traffic. The recommended location is approximately 11373 Half Day Road which falls under Lake County's jurisdiction. As explained in the attached letter, we are seeking permission from Lake County to install a camera at this location. Given this location falls in your district, we thought it appropriate to start the process with you. If Lake County ultimately supports this request and this letter is not the preferred method of approval, I would be happy to facilitate any additional steps that would be required.

Thank you for your consideration. Please let me know if you have any questions or if you need additional information.

Thank you
