Hi Alison,

Even though we currently only have 14 cameras up and running, not the 17 listed on invoice number INV-30176, we will pay the full amount of \$46,249.86 with the expectation of the \$45,000 credit toward year one of our five year agreement. I'm working with our Finance Department to process the payment promptly.

Thank you,

Good afternoon,

After speaking internally and figuring out the best option forward without having to go to City Council we came to the conclusion of paying this outstanding invoice currently, and your 5 year deal year 1 will be credited \$45k due to your original contract was signed as service dates begin at Last Camera Validation and since that is not installed yet, your service dates have not begun.

Please let me know if you have any questions.

Thank you,
