Subject: RE: Camera not functioning

Hi Hailey,

I was able to speak to the property management for the new location for camera 5 ([REDACTED]) [REDACTED] I believe they will give permission to have the camera installed on their property so we won't need the permit. The property manager had a few additional questions he wanted to ask you so he may be reaching out. His name is Frank Lapasso from Imperial Reality.

Thanks,
Mike

Howdy Sir -

We have shifted Camera 05 - [REDACTED] [Inside 2 Lanes](#) over to where we believe you are wanting it. This location will require an IDOT permit in order to move forward (unless we can get approval from one of the adjacent property owners to place it on private property).

Do you approve of this new location? (green camera in image)

Are you OK with us seeking an IDOT Permit here?

Or do you think we can get property owner approval for one of the locations with the pink arrows? (in the image below)

Please let me know your thoughts!

Thanks,

Hi Hailey,

I am not having much luck with the reaching Imperial Reality. With that, would it be possible to install the camera on [REDACTED] covering westbound [REDACTED] traffic?

Thanks,

Mike

Howdy Sir -

Just wanted to check back in!

Do you think we will be able to obtain property owner permission (Imperial Realty) for the new location for Camera 5?

Once we have that we can get this on the schedule for installation ASAP.

I have attached a document they can sign but it can also be as simple as an email from the property owner confirming we are OK to move forward here!

Please see your updated [Tracker](#) for additional updates on your outstanding cameras.

Please let me know if you have any questions!

Thanks,

Howdy Sir -

Thank you for confirming you are OK to move forward with the new location for Camera 5!

We are just needing written approval from the property owner (Imperial Realty) in order to move forward with the installation.

Do you think this is something you can help us obtain?

Hi Hailey,

Thanks for the update. I approve the new location on the private pole for camera 5. The current temporary locations for cameras 9 and 12 are working out fine, they can stay where they are. The temporary locations for 6,7,8 and 11 are also good for now, we can continue to wait on those permits.

Thanks,

Mike

Howdy Sir -

My **sincere** apologies for the delay in getting you over an update!

Please see the most recent update regarding your outstanding Flock Cameras, below -

Cams 6, 7, 8 & 11 - Pending IDOT Permit Approval

Submitted 12/12/22, Rec'd Comments and resubmitted 4/13/23

Pending Approval or additional comments

Checked back in 12/5 regarding an update - Will let you know as soon as we hear back from the reviewer, Jonathan!

Cams 9 & 12 - On Hold - Cook County

Flock Govt Affairs is still working with Cook County to try and find a path forward for LPRs in their ROW (~14 months at this point) We can either keep these on hold until a path forward is established or find new locations for these cameras.

Please let me know how you would like to proceed!

Cam 5 ([REDACTED] **Inside 2 Lanes**) - New Location Needed

We attempted to install this location but due to the heavy presence of underground utilities in the area we were unable to.

We are suggesting we place this camera on the existing private light pole at ([REDACTED]) instead.

Do you approve of this new location? If not, do you have any other areas you would like to place this camera?

If approved we would only need the property owner signature on the attached form to install this camera!

Please let me know your thoughts on Cameras 9, 12 & 5 or if you have any other questions or concerns.

I will be sending out biweekly updates moving forward but feel free to refer to your [Tracker](#) in the meantime!

Thanks,

Chief,

Apologies for the delay here as I was trying to track down multiple pieces of information from different teams here at Flock. From what I am seeing on my end we have a technician scheduled for 10/19 to come to this location and remove the AC box, replace the camera, add a solar panel, and add penguin packs to assist the camera in staying powered this winter.

I know we have had a lot of changes on our end so if something got lost in translation or if you need to make any changes your Project Manager [@Hailey Spessard](#) and Deployment Specialist [@Mike Holub](#) can assist you.

If no changes are required I expect list location to be back online on 10/19 (it may take 12-24 hours to calibrate). Please let me know if you have any questions.

Have a great day.

Hi Mike,

I am not sure if this goes to you, if not, please let me know where to send it.

Our camera located at [REDACTED], identified as 01 - [REDACTED] – Relocation is not functioning. This is at one of our busiest intersections so we would need to get it up and running as soon as possible. What do I need to do to get it working again?

Here is a screenshot of the dashboard.
