**Subject:** Flock Safety - Regarding your Recent Survey Response

Hi Detective Colatorti,

I hope you are doing well.

I did see your survey response where you cited dissatisfaction with the camera installation process and timeline.

We want to sincerely apologize for the extended delay in completing the camera installation. We understand how frustrating this has been and truly appreciate your patience throughout the process.

Unfortunately, a key factor contributing to the delay has been the pending permit approval from the Illinois Department of Transportation (IDOT). While our team submitted all necessary permit documentation in a timely manner, the approval process on their end has taken significantly longer than expected.

Please know that our permitting manager continues to follow up persistently with IDOT, pushing for updates and resolution at every opportunity. We remain fully committed to moving this project forward as quickly as possible once the necessary approvals are in place.

We'll continue to inform you of any developments, and again, we truly appreciate your understanding and continued patience.

Please don't hesitate to let me know if you have any questions or further concerns in the meantime.

Stay safe,

--
