Illinois Chiefs ALPR and AI Survey

ALPR/AI Survey

Due to the recent issues and potential legislation we may see in the future, we are working to **identify ALPR vendors** currently in use by our members and agencies across Illinois. Our goal is to start a dialogue on how to prevent any potential misuse and improve current technologies, audit trails, and safeguards.

We are also looking for **ALPR success stories** so we can be prepared when potential legislation is put forth during the Veto and/or Spring sessions. Please share examples of a time where ALPR data has been invaluable in solving various crimes, especially violent crimes, with accessing/utilization of out of state data.

Please take a couple of minutes to answer a few questions by [clicking this link](#).

We would like to have all responses by **9 a.m. on July 14, 2025.**

Thank you!

Each agency can tailor their participation to meet the needs of their community, allowing for flexibility while still contributing to the overall effort.
