## ALPR-Email 1

Hi Jennifer,

We are excited to introduce Getac LPR Basic – the newest addition to Getac’s lineup of video solutions – purpose-built for law enforcement.

When you're in the field, you need more than just data—you need fast, reliable insights that help you make decisions in real time. That’s where Getac LPR Basic comes in.

Built for frontline teams, Getac LPR Basic is a real-time license plate recognition (LPR) solution designed to identify vehicles of interest the moment they enter your view.

### Key Features of LPR Basic:

- Real-time plate capture with GPS and time stamps
- Instant hot list alerts for fast decisions
- Search on the spot via Getac In-Car Display or Evidence Management App
- Multi-lane, multi-plate scanning for high-traffic area
- Full vehicle ID: plate, make, model, and color
- Self-managed data retention—your data, your rules

### Ready To Learn More?

Getac LPR Basic is more than license plate recognition. It's about giving your officers the situational awareness they need to protect themselves, close cases faster, and keep your community safer.

If you're ready to streamline operations, strengthen response, and stay ahead of potential threats, we're here to help.

Click the following Button to schedule a consultation or call **1(833) 820-5172** to speak with a member of our Customer Success Team. Get started today!
