

Axon Body 3 Function Guide

IMPORTANT: Before using an Axon Body 3 camera, ensure it is registered to your agency, assigned, and fully charged. Refer to the Axon Body 3 Registration Guide or [online instructions](#) for more information.

Camera Reference

Read, understand, and follow all current instructions, warnings, and relevant Axon training materials before using any Axon system. The most up-to-date warnings and instructions are available at www.axon.com. See the Axon Body 3 Product Guide page (www.my.axon.com/axon-body-3) for registration information, operating instruction, training videos, and manuals.

Operating Button Actions

The Axon Body 3 camera button actions associated with each user action are described below.

Action	Button Actions
Power On	Press Power button until short vibration. Camera starts and enters Ready (Buffering) mode.
Power Off	Press and hold Power button for 3 seconds.
Start recording	Double-press Event button.
End recording	Press and hold Event button for 3 seconds.
Add marker to recording	While recording, press Select button.
Increase speaker volume	Press Volume ▲ button.
Decrease speaker volume	Press Volume ▼ button.

Exit Sleep mode	Press Power button or double-press Event Button
Activate display backlight	Double-press Select button. Display backlight turns on for 5 seconds.
Pairing	Simultaneously press Event and Program buttons, then release.

* - The camera remembers volume and light settings when exiting Stealth mode.

Uploading Videos and Charging Axon Body 3 Cameras

IMPORTANT: Ensure the camera USB port is dry and free of dirt or debris before placing the camera in a Dock or connecting a USB-C cable.

Insert the Axon Body 3 camera into an Axon Body 3 Dock bay to upload videos and charge the camera's battery.

DO NOT unplug the Axon Dock power supply while Axon devices are inserted in the bays.

Examples: Axon Body 3 camera inserted into a 1-Bay dock (left) and an 8-Bay dock (right)

Using Axon View

The Axon View application enables you to replay video and add metadata (GPS, title, case ID, and category) to your videos using a smart phone or other smart device. **Note:** Videos are not stored on your smart device

1. Using your smart device, search for, download, and install the Axon View application from the Play Store or the App Store.
2. Open Axon View, select a Axon Body 3 camera and tap **Initiate Pairing**. You may need to sign in to your Axon Evidence.com account.
3. Turn on your Axon Body 3 camera. On the Axon Body 3 camera, press the **Program** and **Event** buttons at the same time.

You will hear three short rising-pitch tones, the Operation LED will blink blue, and PAIRING is shown on the display.

4. Follow the Axon View on-screen instructions.

Camera Display

The Axon Body 3 camera display, on top of the camera, shows camera status and activity information. The display is divided into a Status Bar and Activity Area. Different information is shown in the field and dock. See the other side of this guide for additional camera display information.

Note: Some icons may not be active or displayed at your agency.

Status Bar Icons	Description
58% [Battery Icon]	Battery capacity
[Camera Icon]	Camera paired
[Light Icon]	Lights off
S	Stealth mode on
!	Battery low warning (right of battery capacity)

Axon Body 3 Camera Display and Notifications in the Field

The Axon Body 3 camera display, on top of the camera, shows information on camera status and activity. The camera also emits sounds called audio prompts to notify you of the device status or when you take an action. The audio prompts can be accompanied by a haptic notification (vibration) that matches the audio.

Operating Mode or Action	Camera Display (Activity Area)	Operation LED	Audio Notification	Haptic Notification (Vibration)
