Rewrite  
report  
writing

With **Draft One**, generate  
report narratives from  
body-worn video in seconds

ATTEND THE WEBINAR

Police departments across the U.S. are understaffed. So why do officers spend up to 40% of their time writing reports? What if you could cut that time in half with the click of a button?

[Draft One is here to help.](#)

Draft One is Axon's revolutionary solution that leverages body-worn camera audio to generate high-quality draft police report narratives in seconds. Safeguards ensure that every report is reviewed and approved by a human officer for accuracy and ownership of information.

Draft One is a force multiplier for law enforcement agencies everywhere. Less time spent on reports means more time spent responding to calls for service, reducing crime and supporting communities.

*"I'm absolutely stunned by the quality of the reports.  
It's the most exciting piece of technology I've seen in  
years."*

*— Sergeant Bob Younger, Fort Collins, CO Police Department*

Draft One works seamlessly within the Axon Ecosystem and with third party records management systems to simplify report writing.

Register for our webinar to hear more about Draft One, featuring Axon Founder and CEO Rick Smith, Senior Principal Product Manager Noah Spitzer-Williams, and representatives from Fort Collins Police Department and Lafayette Police Department who already rely on Draft One at their agencies.

***Join our launch webinar on Tuesday, May 21 at 10 AM PT/1 PM ET.***
